Stopping the manufacture of iodised salt

950. SHRI SATYA PRAKASH MALAVIYA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that researchers of the Defence Research Organisation have opined that iodised salt being manufactured in the country is not good for health as reported in 'Navbharat Times' of the 19th May, 1988;

(b) if so, whether Government have ascertained facts in this regard; and

(c) what steps have been taken to stop the sale of iodised salt?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE ((KUMARI SAROJ KHAPARDE): (a) to (c) Yes. The Government has seen the news item.

Administration of iodised salt is the simple and cheapest method for the control of Goitre and other Iodine Defficiency Disorders, which is one of the most widely prevalent nutritional problems of the country. The level of iodisation of salt has been prescribed under the Prevention of Food Adulteration Rules, 1955 taking into account acceptable level of iodine in-take oven by normally healthy individuals. There is a general consensus that iodation of salt at the level recommended will not pose any health hazards to the consumers of all age groups even though they are not having iodine deficiency.
